VPN Solution

Campus Wi-fi

In today's fast-paced digital world, students and staff expect fast and secure campus Wi-Fi. We offer campus Wi-Fi solutions that provide fast and reliable connectivity, while also including advanced security features to keep your network safe.

Managing a wireless network can be a challenging task, particularly when dealing with multiple access points and a high volume of users. Sharva offers a WiFi solution that simplifies network management and enhances performance.

Our WiFi controller provides centralized network management, traffic optimization, automatic configuration, and security capabilities. It streamlines network, improves the user experience, and enhances network security. We offer hardware and cloud based controller.

Security

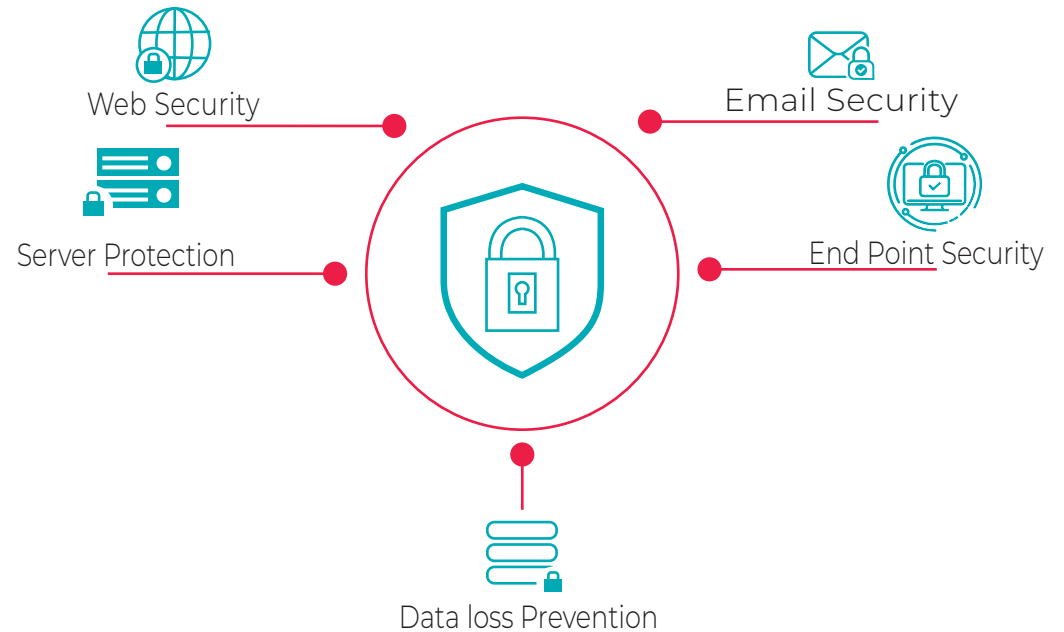

Web, Email, Server & Endpoint Security

The digital landscape is expanding at an unprecedented rate, with cloud and hybrid IT creating new and complex security challenges. We at Sharva recognize the need for smart solutions to address these evolving security threats.

Our comprehensive range of cybersecurity capabilities and customer-focused approach allow us to provide tailor-made security solutions to our clients. We empower them to embrace seamless digital transformation and cloud migration while ensuring the highest level of security for their digital assets.

Contact us today to learn how our cybersecurity solutions can help you navigate the changing IT landscape and protect your organization's sensitive data.

Our Security Solution includes

Surveillance

Computer networks are crucial for businesses to operate efficiently. However, with the increasing reliance on computer networks, it has become essential to secure them against potential security breaches. At Sharva, we offer CCTV, NVR, and PoE switches to help secure your network.

We understand the importance of securing your network. Our CCTV, NVR, and PoE switch solutions can help you monitor and secure your premises, record high-quality video footage, and provide reliable power to your network devices.
